SAFETY DATA SHEET

SECTION 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Synonym: Not available.

Use: Protection of roads, runways, etc. from destruction caused by environmental factors and traffic loads.

Chemical formula: Mixture.

Registration numbers: Not allocated.

Manufacturer/Supplier: HALIK Ltd.

Address: 24 Tamuz, Kiryat Gat 82000, Israel.

Phone number: 972-8-6817453/4

Fax number: 972-8-6814020

E-mail: info@halik.biz

Website: www.halik.biz

SECTION 2. COMPOSITION AND INFORMATION ON INGREDIENTS

SECTION 3. HAZARDS IDENTIFICATION

This chemical is not considered hazardous according to the OSHA Hazard Communication Standard 2012 (29 CFR 1910.1200).

**OSHA Pictogram**

- Harmful if swallowed
- May cause irritation

**Effects of short-term exposure**
- May irritate the eyes, respiratory tract and (slightly) skin.

**Inhalation**
- May cause irritation. Vapors may cause headache, nausea and/or dizziness. In application, normally reduced inhalation hazard due to high vapor density and rapid polymerization upon contact with air.

**Skin contact**
- H317 May cause an allergic skin reaction. May cause irritation.

**Eye contact**
- May cause irritation.

**Ingestion**
- No normal route of exposure. Causes irritation.

**Effects of regular exposure**
- Frequent and prolonged contact of the skin with the product may cause dermatitis.

**Medical conditions which may be aggravated by contact with the product**
- Pre-existing skin diseases.
Hazards for environment
After polymerization taking about an hour in the open air (depending on ambient temperature, air humidity, etc.). Doesn’t contaminate the environment.

Precautionary statements
P210
Keep away from heat/sparks/open flames/hot surfaces.
P233
Keep container tightly closed.
P280
Wear protective gloves.
P501
Dispose of contents/container in accordance with local/regional/national/international regulations.

SECTION 4. FIRST AID MEASURES

Inhalation
Evacuate to a place with fresh air. If respiration is difficult, provide oxygen. If irritation or persistent problems develop, seek medical attention.

Skin contact
Remove contaminated clothes. Wash thoroughly with warm water and non-abrasive soap. From uninjured skin, the product can be easily removed with mineral oil. If irritation or persistent problems develop, seek medical attention.

Eye contact
Immediately wash with much water for at least 15 minutes keeping the eyelids wide open. Never use any eye ointment. If irritation or persistent problems develop, seek medical attention.

Ingestion
Don’t induce vomiting. Have conscious person drink several glasses of water or milk. Clear the mouth and keep at rest. Call a physician. In case of spontaneous vomiting, prevent aspiration into the respiratory tract.

Notes on methods of treatment
Treat depending on symptoms.
SECTION 5. FIRE AND EXPLOSION DATA

Flammability of the product  Non-flammable without direct action of open fire.
Flash point  85 ºC - 150 ºC, adjustable (ASTM D93)
Auto-ignition temperature  Not available.
Products of combustion  Carbon oxides and other unidentified compounds.
Fire hazards  Flammable in the presence of open flames, sparks or excessive heat.
Extinction agents  Carbon dioxide (CO2), dry chemical powder, foam. Don't use water directly.
Special fire-fighting methods  Use water mist to cool product containers if they get heated.
Personal protective equipment  Protective clothes, footwear and breathing masks.
for firemen
Explosion hazards  Non-explosive.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Emergency measures in case of spilling  Slippery when spilt, avoid accidents. Stop leakage.
Eliminate sources of ignition. Use sand or earth to absorb the spilled product. Put it into a metal container.
Clean up the area of spilling.
Personal protective equipment  Protective clothes and footwear, safety goggles with side protection, respirator with filters for organic vapors.
Precautions to avoid damage to environment  Avoid penetration into natural water courses, water wells and sewer systems. After polymerization taking about an hour in the open air, doesn't contaminate the environment.
Purification methods  Absorb the product remnants with inert materials and put into a metal container. Wash open surfaces with much water.
and industrial detergents.

Waste disposal methods See Section 13.

SECTION 7. HANDLING AND STORAGE

Precautions

Handle with care in the open air or in well-ventilated areas.

Avoid contact with eyes and skin. Keep away from foodstuffs, drinks and tobacco. Eating, drinking and smoking should be prohibited in areas where the product is handled, stored or processed. Workers should wash hands and face before eating, drinking or smoking. Ensure that eye washing facilities, safety showers and lavatories are proximal to workstation location.

Storage conditions

Store in tightly closed containers outdoors or in ventilated rooms.

Keep away from sources of heat and ignition.

Keep away from highly oxidizing products.

Provide safety showers and lavatories.

SECTION 8: EXPOSURE CONTROL / SPECIAL PROTECTION

8.1 Control parameters: Occupational exposure limits: No exposure limit value known.

8.2 Exposure Controls:

8.2.1 Appropriate engineering controls

Provide adequate ventilation, including appropriate local extraction, to ensure that the occupational exposure limit is not exceeded.

Adequate ventilation. Good practice of personal and industrial hygiene.

Provide safety showers and lavatories.
### 8.2.2 Personal Protection

**Eye/face protection**  
Goggles giving complete protection to eyes (EN 166)

**Skin protection**  
Protective gloves (EN 374)

**Respiratory protection**  
In case of insufficient ventilation, wear suitable respiratory equipment (BS EN 14387:2004+A1)

**Other**  
Apron or other light protective clothing, boots and plastic or rubber gloves.

### 8.2.3 Environmental Exposure Controls

Avoid release to the environment.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

<table>
<thead>
<tr>
<th>Property</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physical state and appearance</td>
<td>Black viscous liquid with mild characteristic odor.</td>
</tr>
<tr>
<td>Boiling point</td>
<td>Not available.</td>
</tr>
<tr>
<td>Flash point</td>
<td>85 ºC - 150 ºC. adjustable (ASTM D93)</td>
</tr>
<tr>
<td>Specific gravity</td>
<td>1.6 (Water = 1)</td>
</tr>
<tr>
<td>Vapor pressure</td>
<td>Not available.</td>
</tr>
<tr>
<td>Vapor density</td>
<td>Heavier than air.</td>
</tr>
<tr>
<td>Volatility</td>
<td>Not available.</td>
</tr>
</tbody>
</table>
Viscosity  
About 3800 cP as measured with Brookfield viscometer (Spindle No. 6) at 100 RPM and 20 °C.

Solubility  
Insoluble in water.

SECTION 10. STABILITY AND REACTIVITY DATA

Stability  
Stable under normal conditions of use and storage.  
Polymerization occurs upon contact with air.

Conditions to be avoided  
Contact with open fire, very high temperatures, contact with incompatible materials.

Incompatible materials  
Strong oxidants (chlorates, chlorine, peroxides, acids, alkalis, etc.).

SECTION 11. TOXICOLOGICAL INFORMATION

Routes of entry  
Inhalation, skin contact, eye contact, ingestion.

Toxic effects on humans  
The product is irritating to mucous membranes, upper respiratory tract, eyes, and also to skin (slightly). Inhalation may cause headaches, nausea and vomiting. May be aggravating to some pre-existing skin and asthma-type conditions.

Chronic effects on humans  
No information available.

SECTION 12. ECOLOGICAL INFORMATION

Effects on environment  
After polymerization taking about an hour in the open air, doesn't contaminate the environment.

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal of remnants and waste  
In accordance with municipal and regional regulations. Consult your local or regional authorities. Remnants can be
disposed of by incineration in suitable ovens. May also be recycled.

Disposal of contaminated containers and packages

Empty containers must be handled with care due to product residue. Don't heat or cut empty containers with electric or gas torches.

SECTION 14. TRANSPORT INFORMATION 4

Hazards in transportation

Not regulated as hazardous material for transportation.

Special provisions for transport

No additional remarks.

SECTION 15. OTHER REGULATORY INFORMATION

Other regulations

TSCA (Toxic Substances Control Act).

SECTION 16. OTHER INFORMATION

References

Manufacturer's Data Sheets and other Manufacturer's documents.

Other special considerations

Individuals with respiratory problems (asthma, chronic bronchitis, etc.) should avoid any contact with this product.

Notice to Reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named Manufacturer/Supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
